PROFESSIONAL SUMMARY

Results-driven Software Developer in the final year of a Bachelor of Computer Applications (BCA) program at Bharath Institute of Higher Education and Research (CGPA 9.43), concurrently pursuing a B.S. in Data Science from IIT Madras. Hands-on experience building scalable Python FastAPI backends and MySQL databases during an internship at Arjava Tech India, where I delivered production-ready REST APIs for the Goddard App. Skilled in React JS frontend development and passionate about crafting efficient, user-friendly web applications.

TECHNICAL SKILLS

Backend Development	Python · FastAPI · MySQL · REST API Design · Database Migration
Frontend Development	React JS · HTML5 · CSS3 · JavaScript
Core Competencies	Data Structures & Algorithms · Web Application Development · Backend Architecture · Problem Solving
Tools & Platforms	Git · GitHub · VS Code

PROFESSIONAL EXPERIENCE

Backend Developer Intern

Arjava Tech India Pvt Ltd | May 2024 – August 2024 | Chennai, India

- Designed and developed 10+ scalable REST API endpoints using **Python FastAPI** for the Goddard App, enabling efficient data processing and seamless third-party integrations.
- Executed **MySQL database migration** across 5+ tables, optimizing data structures and ensuring zero-downtime transitions to the new schema.
- Collaborated with the development team to deliver production-ready backend features, improving overall application performance and reliability.
- Followed industry best practices for code structure and documentation, enhancing maintainability and team productivity.

EDUCATION

Bachelor of Computer Applications (BCA)

CGPA: 9.43 (Final Year) | Bharath Institute of Higher Education and Research | 2023 – 2026

B.S. Data Science – Online Degree Program

Currently Pursuing | IIT Madras | 2025 – Present

12th Standard (Higher Secondary Certificate)

84% | SSV HR Sec School, Tenkasi | Completed 2023

KEY PROJECTS

- Portfolio Website** – Personal portfolio showcasing projects, skills, and achievements. poothathan.github.io/portfolio
- DSA Visualizer** – Interactive web application for visualizing Data Structures and Algorithms step by step. poothathan.github.io/DSA-Visualizer
- Connect Four Game** – Browser-based two-player Connect Four game built with vanilla JavaScript and CSS. poothathan.github.io/connect-four
- Guess Game** – Interactive number-guessing game with dynamic UI feedback and score tracking. poothathan.github.io/guess-game

ACHIEVEMENTS & AWARDS

- 1st Prize** – TechQuiz Programming Quiz, BIHER
- 2nd Prize** – National Science Day App Development Contest
- 2nd Prize** – BrainBytes Programming Puzzle, AMJ College BITSYNC 3.0 (Inter-College Fest)
